Schemas

QuantityDTO Collapse all object

A quantity with values and unit

- value* Expand all number double
- unit* Expand all string
- measurementType* Expand all string matches LengthUnit|VolumeUnit|WeightUnit|TemperatureUnit
- validUnit boolean
- **Examples** Expand all array

QuantityInputDTO Collapse all object

Input object containing two quantities and an optional target quantity

- thisQuantityDTO* Expand all object
- thatQuantityDTO* Expand all object
- targetQuantityDTO Expand all object
- ***Example*** Expand all object

QuantityMeasurementDTO Collapse all object

- thisValue number double
- thisUnit string
- thisMeasurementType string
- thatValue number double
- thatUnit string
- thatMeasurementType string
- operation string
- resultValue number double
- resultUnit string
- resultMeasurementType string
- errorMessage string
- error boolean
